

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory can automatically trigger to both unload and release as soon as the bumper release contacts the side of a dumpster. When unloading is done, the hopper is able to go back to original locked and upright position. This particular piece of equipment even comes together with a cable that enables operation from the seat of the forklift so as to have the option of manually dumping the hopper. There is a locking chain provided to be able to lock the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper likewise has a blue powder coat finish to maintain durability.
