

Meritor Part

Meritor Parts - Meritor is a leading international supplier which is proudly established on a one hundred year custom of quality and service. They concentrate on different integrated systems, modules and parts to original machinery makers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused people. These top-caliber workers can rapidly get used to to changing environments and freely demonstrate the level of commitment and performance needed to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all of their employees different possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is even responsible for supporting the needs of their global engineering personnel.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all over the globe in 19 nations and in 5 different continents.

The supplier development network is specially situated to be able to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who use Six Sigma tools to business techniques and implement lean techniques.
