

Advance-Nilfisk Part

Advance-Nilfisk Parts - Imagine how long and tiresome it would really be to tidy up right after a party, without help from machines. Previously, the dust from upholstery and carpets had to be beat out of them by hand; brushes, cleaning cloths and brooms were the leading cleaning products at the time.

The man who established Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who really liked to work on electrical motors. After starting his company in the year 1906, he began to make motors to drive fans, machine tools, drills and coffee grinders. Mr. Fisker's dream from the start was to own an international business advertising products worldwide.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning business. Mr. Fisker invented a remarkable, ground breaking vacuum cleaner that can be operated by a single individual for the reason that it only weighed 17.5 kilos! This invention came in a time where other cleaning equipment were very big and required at least 4 operators, therefore, the Nilfisk C1 changed everything and developed the method we clean forever. The mastermind behind these first cleaning machines remains unparalleled. Cleaning equipment provide a brilliant solution to an existing problem; things get dirty and should be cleaned frequently, without too much effort.

Little by little, the business Nilfisk-Advance expanded throughout the years. During the the early part of the 1980's the company expanded fast when the business became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance ahead within the business, trying to be an active international player in manufacturing professional cleaning machines. Nilfisk-Advance is now found in all parts of the world due to gradually acquiring a lot of small businesses to be able to grow their product range and presence in new markets. They are really proud to present different cleaning solutions to fit each need.
