

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique brands of forklifts, with components covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really impressive intercontinental support network. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the extremely economical and advantageous system of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of manufacturing facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the efficiency and brilliance of their products while minimizing costs. The contemporary value engineering program combines progressive product development and delivers superior client support and service within the industry.
